QUESTIONS

Please visit our website and read over the information for 2022 Summer Learning. If you have any questions about the Summer Learning Agriculture Programs contact Sean Wicker.

2022 Summer Learning Agriculture Program & Sustainable Vegetable Production

Grade 3-5: Elementary Agriculture

This course will engage students in hands-on learning to enrich their knowledge of local agriculture. This course will integrate science, social studies and ADST outcomes

Grade 6-8 & Grade 9-12: Sustainable Vegetable Production

Students will be taught about food production through practical, hands-on experiences. Students will learn skills in land preparation, planning, weed control, pest management, fertilizing, pruning, harvesting, marketing and sales and culinary opportunities. Students will work alongside community partners who are specialists in the various commodities grown. Students will take food home on harvest days and be encouraged to prepare and eat the food grown with their families.
